"Off you go, then," she said, "and leave us to settle this matter of the Rule." Her frown was as fierce as ever, but her voice was seldom as harsh as this when she spoke to him. "If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature at Dulse's request that the wizard had to laugh. aimless wanderings the knowledge of the underground would enter him as it used to do, and he would. On the island of Ark, and in Orrimy on Hosk, and down among the Ninety Isles, there are tales about a man who came seeking for a land where people remembered the justice of the kings and the honor of wizards, and he called that land Morred's Isle. There's no knowing if these stories are about Medra, since he went under many names, seldom if ever calling himself Otter any more. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. And Early had a good chance of tracing him. Losen's power stretched all across Havnor and the north of the Inmost Sea, growing with the years; and the Hound's nose was as keen as ever. fly to Roke. Or swim, or sail, or come in any way at all. He denied this. "I could have." "Are. . . are we still in the station?" .Now Medra felt that he had been asked the question on which the rest of his life hung, for good or evil. Again he stood silent a while. He started to speak, and didn't speak, and finally spoke. "I could not save one, not one, not the one who saved me," he said. "Nothing I know could have set her free. I know nothing. If you know how to be free, I beg you, teach me!" .The tall man in his tall hat suddenly sat down on the dirt beside Otter, quite close to him. His breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turres. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" And he stood up, supple and sudden, taking Otter's hand in his and pulling him to his feet with startling strength. He was laughing with excitement. .Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round. to his conscience. But for some decades the kings of Hupun had been in conflict with the high priest and his followers in Awabath, the Holy City, fifty miles from Hupun. The priests of the Twin Gods were in the process of wresting power from the kings and making Awabath not only the religious but the political center of the country. Erreth-Akbe's visit seems to have coincided with the final shift of power from the kings to the priests. King Thoreg received him with honor, but Intathin the High Priest fought with him, defeated or deceived him, and for a time imprisoned him. The Ring that was to bond the two kingdoms was broken. .dark. "That girl you liked, witch's Rose, she's tuning about with Labby, I hear. No doubt they'll come by." .then. And if not a happy ending, "Best come away," said the Master Windkey, his face set and sombre, his keen eyes troubled. He set the last high note. "I haven't got it right yet," Diamond said, vexed and embarrassed..said. He came daily to see that Otter was recovering from his concussion and dislocated shoulder, the first test of character Diamond had broken. "Glass," the wizard muttered. At least this. He went on to the foot of the street. It opened into a small market square. People were gathered there, not many of them. They were not buying or selling. There were no booths or stalls set up. They were waiting for him..made and put against the front wall of the house. He looked upstream at her, crouching motionless. In a day or two some of Licky's men came asking if anyone had seen or heard tell of the great wizard Gelluk and a young finder-both disappeared without a trace, they said, as if the earth had swallowed them. Nobody in Woodedge said a word about the stranger hidden in Mead's apple loft. They kept him safe. Maybe that is why the people there now call their village not Woodedge, as it used to be, but Otterhide..South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano. one in a hundred, it is a latent, cultivable talent. King needed some diversions..He strode from the house, turned, and set a fire spell on it so that it burst into flames, thatch. He stared at her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair. He stopped and felt the dirt under his feet. He was barefoot, as usual. When he was a student on Roke, he had worn shoes. But he had come back home to Gont, to Re Albi, with his wizard's staff, and kicked his shoes off. He stood still and felt the dust and rock of the cliff-top path under his feet, and the cliffs under that, and the roots of the island in the dark under that. In the dark under the waters all islands touched and were one. So his teacher Ard had said, and so his teachers on Roke had said. But this was his island, his rock, dust, dirt. His wizardry grew out of it. "My mastery is here," the boy had said, but it went deeper than mastery. That, perhaps, was something Dulse could teach him: what went deeper than mastery. "I got a girl, a town girl, to come to my room. My cell. My little stone celibate cell. It had a window looking out on a back-street. No spells - you can't make spells with all their magic going on. But she wanted to come, and came, and I let a rope ladder out the window, and she climbed it. And we were at it when the old men came in! I showed 'em! And if I could have got you in, I'd have showed 'em again, I'd have taught them their lesson!" lengthened a day by five hours, though he could not, as he had sworn to do, stop the sun at noon. enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard. It was a horrible sensation, as if his muscles were not his own. He sat, laughed and chattered. Was this still architecture, or mountain-building? They must have understood that in. Early looked at him once. Hound's mouth snapped shut and stayed shut. Hound had taken him, had stood and seen his people beaten senseless, had not stopped the beating. The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater. island, and there was no island. Then there were some men from one of the great galleys. They said, "I'm not really good on the fife, but I'm good enough. What you didn't teach me, I can fill in with a spell, if I have to. And the band, they're all right. Labby isn't as bad as he looks. Nobody fools with me. We make a pretty good living. Winters, I go stay with Mother and help her out. So I'm all right. What about you, Di?" He came up on deck again. It was clearing, and as the sun set the clouds broke all across the west, showing a golden sky behind the high dark curve of a hill. A man came up the mountain to Woodedge, a charcoal burner from Firm. "My wife Nesty sends a message to the wise women," he said, and the villagers showed him Ayo's house. As he stood in the doorway he made a hurried motion, a fist turned to an open palm. "Nesty says tell you that the crows are flying early and the hound's after the otter," he said. can take him.
