While Caro typed in the blanks, I wondered at the difference between Amanda Gall's attitude toward Selene and that portrayed by the columnists. They made it sound like kinky fun. Over the past several years there had been a rush to the analysts' couches by people hoping to find another personality or two living inside their heads with them. I even knew perfectly normal people so taken with the idea that they resorted to aping the signs of dissociation.. "It's just a whole new area," McKillian whispered back. "Think about it Back on Earth, nature never got around to inventing the wheel. I've sometimes wondered why not There are limitations, of course, but it's such a good idea. Just look what we've done with it But all motion hi nature is confined to up and down, back and forth, in and out, or squeeze and relax. Nothing on Earth goes round and round, unless we built it. At the same time, Fm afraid that his rage will get us into extremely serious trouble. The Sreen have already demonstrated their awesome power through the ease with which they located and intercepted us just outside the orbit of Neptune. Their vessel is incomprehensible, a drupelet-cluster of a construct which seems to move in casual defiance of every law of physics, half in normal space, half hi elsewhere space. It is an enormous piece of hardware, this Sreen craft, a veritable artificial planetoid: the antiseptic bay in which our own ship now sits, for example, is no less than a cubic kilometer in volume; the antechamber in which the captain and I received the Sreen edict is small by comparison, but only by comparison. Before us is a great door of dully gleaming gray metal, five or six meters high, approximately four wide. In addition to everything else, the Sreen must be physically massive beings. My head is full of unpleasant visions of superintelligent dinosaurs, and I do not want the captain to antagonize such creatures.. "Very well," said Amos. The meeting started out with everybody shouting and talking at once; then the Organizer showed up, and everybody quieted down. That afternoon, when he returned to the bungalow, he caught her staring at him again at the edge of the clearing. So he asked Moises who she was, and Moises didn't know. Apparently she'd just arrived a day or two before, paddling a crude catamaran downriver from somewhere out of the denser jungle stretching a thousand miles beyond. The apartment couldn't have been more different from the one across the hat. It was comfortable and cluttered, and dominated by a drafting table surrounded by jars of brushes and boxes of paint tubes. Architecturally, however, it was almost identical. The terrace was covered with potted plants rather than naked muscles. David Fowler sat on the stool at the drafting table and began cleaning brushes.
