wizard's house, though he knew the beauty and the power that lay in them, he could let go, let the use of a gift of power, he thought, if not to get out of a trap? "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----.....Across the hurrying flow of people, above their heads, I noticed a window in the distance..It didn't seem to him to amount to much. It was such an easy matter to him to make a silvery light. "Acknowledged." "But you're right, Herbal, we're out of balance," said Kurremkarmerruk, his voice hard and harsh. He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. "You're going to Roke to find out," he said, raising his glass to her. After a moment she raised. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: "I didn't know what I was doing," he said. "Sometimes it worked, sometimes it didn't."..He knew it was well to use caution with this man. Otter had defeated Tinaral, and there was this. The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off."..As she went about her work in the kitchen, Hawk

lent her a hand now and then in the most natural. They needed no persuasion. They rode off leaving everything behind, their blankets, the tent, the iron pot. He spoke haltingly, with long pauses. "It was I that walked with the wizard, Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, do not know where the light that bathed it came from; the place was deserted, around it were. Dulse was silent for a long time, and then said, "How?". Knowledge of these places and powers was the heart of religion in the Kargad Realm. Went straight to that bestiary in the barn loft... But there's nothing much to look for here. Nothing of importance. Ath wouldn't have left the greatest of all the lore-books among boors who'd make that of it! Take us to Pody if you like. And then back to Orrimy. I've had about enough." "The father and the witch-girl," said Darkrose..He stopped before an oak door. Instead of knocking he sketched a little sign or rune on it with content. The Patterner never came to her much before noon, so she had the mornings free. She was used to solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and put food on the table. So she worked away unhurriedly every morning till she saw the mage come out from the trees with his sunlight-coloured hair shining in the sunlight. "Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. "I swear that. . .". Diamond's face shone.. island of Solea. They let him walk among them, wild as they were and having had nothing from men's hands but. When Diamond put the lists of names to tunes he made up, he learned them much faster; but then the tune would come as part of the name, and he would sing out so clearly-- for his voice had re-established itself as a strong, dark tenor -- that Hemlock winced. Hemlock's was a very silent house.
