Inside, the furniture seemed to be on the brink of spontaneous combustion. The sliding windows were another blacktop parking lot, which is only half as well lighted as those he's seen previously..Jay shrugged again. "Protection, maybe.".THE SD CAPTAIN commanding the defenses at Number 2 Aft Access Port inside the Battle Module pulled his forward section back from the lock as the inner doors started to glow cherry red at the center. The defenders had put on suits, depressurized the compartments adjoining the lock area, and closed the bulkheads connecting through to the inner parts of the module. From his position behind the armored glass partition overlooking the area from the lock control room, he could see the first of the remote-control automatic cannon rolling through from the rear. "Hurry up with those RCC's," he shouted into his helmet microphone. "Yellow section take up covering positions. Green and Red prepare to fall back to the longitudinal bulkhead locks, ". "Arrogant?" Adam smiled to himself. "They're the ones who are so sure they 'know,' not me. I'm just making the best interpretation I can of the facts I've got." He thought for a moment longer. "Anyhow, arrogance and pride are not the same thing. I'm proud to be a human being, sure.".income tax on it.".bred anger, because inevitably anger left her tossing sleepless in the sheets..she herself has shown no mercy..Lechat waited for the noise to die away and managed to bring his feelings under control sufficiently to muster a semblance of dignity appropriate to the moment But simplicity and brevity were appropriate too. "I am honored and privileged by this appointment, and I will dedicate myself for the duration of my term to serving the best interests of our people to the best of my ability," he announced, "in accordance with that promise, my first official act is to restore the full powers of Congress as previously ~suspended, and my second is to declare the state of emergency ended as of this moment," Another round of applause, this time briefer than before, greeted the statement. "Next, I have two proposals to put to the vote of the assembly," Lechat said. "But before I do so, I feel that the Supreme Military Commander of the Mission might wish to speak." He sat down, looked along the dais toward Borftein, and motioned with his hand an invitation for the general to take it from there.. "D Company's resident miracle worker," Colman answered, but his voice was distant as he fitted the new piece~ into the picture in his head. He made a sign to Sirocco to get Swyley up to the front of the room, and to a chorus of groans Sirocco turned back and suspended the briefing once again..authorities. He shoves the currency into his pockets once more.. "So Dr. Doom is a UFO nut," Micky pressed..Hesitantly, he eases open the driver's door and slips out of the SUV. onto the bed of the transport..mad, insane. There's a lot of that going around. In spite of those inviting arbors, no.Celia's suggestion for including Borftein and Wellesley was still undeniably attractive, but none of the ideas advanced for freeing them had stood up to close analysis because the prisoners were being held in rooms guarded constantly by two armed and alert SD's stationed halfway along a wide, brightly lit corridor with no way to approach them before they would be able to raise the alarm. Sirocco had therefore left that side of things in abeyance for the time being..had a chance, she won by cheating.".their bladders: a longer rest stop than they had planned. There isn't anything like that in real life." "Who cares? It's more fun. Why be a drag?" "Sometimes," Shirley answered. "Ci teaches English mainly, but mostly down on the surface. That is, when she's not working with electronics or installing plant wiring underground somewhere. I'm not all that technical. I grow olives and vines out on the Peninsula, and design interiors. That's what brought me up here--Clem wants the crew quarters and mess deck refitted and decorated. But yes, I teach tailoring sometimes, but not a lot.".Chapter 18."Of course not," Rastus said. "But if the Kuan-yin isn't finished, then what made the crater in Remus?".."Worth considering for what? You're not saying he'd make an engineering officer, surely.". "Perhaps we could propose a goodwill exchange visit," Stern suggested. "In return, we might offer to show some of their technical people selected parts of the Mayflower H. A legitimate cover would be desirable.". "I'm with my dad. He's inside getting takeout, so we can eat on the road. while behind them the contingent from D Company was already bounding through in the low gravity of the Spindle to join the SD's deploying toward the outer lock. He and his family disappeared from Cordova Village two days ago and have not been 'heard of since. He failed to report for duty yesterday. We must assume that he has absconded. He moved out into the aisle, where the floor had folded itself into a steep staircase to facilitate fore-and-aft movement, and climbed through into the side-exiting lock chamber with Colman and Hanlon behind him while Red and Blue sections formed up in the aisles immediately to the rear. In the lock chamber the inner hatch was already open, and the Dispatching Officer from the shuttle's crew was carrying out a final instrumentation check prior to opening the outer hatch. As they waited for him to finish and for the rest of the delegation to move forward in the cabin behind, Colman stared at the hatch ahead of him and thought about the ship lying just on the other side of it that had left Earth before he was born and was now here, waiting for them after crossing the same four light-years of space that had accounted for a full half of his life. After the years of speculations, all the questions about the Chironians were now within minutes of being answered. The descent from the Mayflower II had raised Colman's curiosity to a high pitch because of what he had seen on the screen. For despite all the jokes and the popular wisdom, one thing he was certain of was that the engineering and structural modifications that he had observed on the outside of the Kuan-yin had not been made by irresponsible, overgrown adolescents..mind to him, Curtis. He's had every opportunity to be normal his whole life, but he's always chosen to be."You'd like Constance Tavenall," he said. "If you'd had a chance to grow up, I think you'd have been a whipping tail. . The dog whimpers.."I've never heard of him," Micky said..Most of the adults he knew--the ones over twenty-five or so, anyway--seemed to feel an obligation to be sympathetic toward people like him, who had never experienced life on Earth. From what he had seen he wasn't sure that he'd missed all that much. Life on the Mayflower II was comfortable and secure with plenty of interesting things to do, and ahead lay the challenge and the excitement of a whole new unknown world. Certainly that was something no one back on Earth could look forward to..coming in.."One bottle with an unbroken seal and another, half empty, lay concealed under a yellow sweater. Micky."I've heard about you." It could only have been from the Chironians he had talked with earlier. Why would they mention his name to her? Who was she? She came nearer and smiled. "My name is Kath. I have some connection with the technical aspects of what goes on here. From what I've heard, I'd imagine you'd find this an interesting place. Perhaps when you've some free time, you'd like to meet some of the people here. If you like, I could mention it to them.."..been Familiar with that strategy..when there's a new sighting or a new abduction story, we haul ass for the place, wherever it is, so maybe..In mid-1977 he moved from England to the United States to become a Senior Sales Training Consultant, concentrating on the applications of minicomputers in science and research for DEC..his leg stiff, rolling his hips in that funny way he did. Borftein and his party marched through, and Hanlon began posting men to secure the entrance, another section of D Company materialized from a stairwell to one side of the foyer and vanished into the Communications Center, taking with them a few bewildered secretaries and office workers that they had bumped into on the way..Jay frowned and looked mildly uncomfortable. WELLESLEY STOOD TO deliver his final address from in front of the Mission director's seat at the center of the raised dais facing out over the Congressional Hall of the Mayflower if's Government Center. In it he recapitulated the events that had taken place since the Mission's arrival at Alpha Centauri, dwelled for a long time on the things that had been learned and the transformation of minds that had been brought about since then,

paid tribute to those who had lost their lives to preserve those lessons, and elaborated on the promise that the future now held for everybody on the planet, referring to them pointedly as "Chironians" without making distinctions.. "Thanks. I guess."..peculiar quality of confrontation had crept into their exchange..CHAPTER TWENTY-EIGHT..Bernard's expression was grave and distant. "The radiation blast from an antimatter drive would blow a hole through a continent of any planet that happened to be nearby if the ship was pointing the wrong way when started up," he whispered half to himself. "It's been up there in orbit, right under our noses all the time. They've got the biggest radiation projector anybody ever dreamed of-right there, riding out in space with the Mayflower II. They put kids and comic robots on it, and we never even noticed it."..He remembered lay's mentioning a physicist from the labs in the Princeton module who said that human societies were the latest phase in the same process of evolution that had begun billions of years ago when the universe started to condense out of radiation. Evolution was a business of survival. Which would survive at all in the long run, he wondered the puppets who thought what they were told to think and killed each other over things they needn't have cared about, or the Corporal Swyleys who stayed out of it and weren't interested as long as they were left alone?.A single lamp glowed. Lechat frowned and seemed about to object. Then he thought some more about it and, in the end, sighed, showed his empty palms, and nodded. Bernard turned back to Jay. "Okay, see what you can do. If you do find him, ask him to get over here as soon as he can make it."..Leilani had no clue to the meaning of her mother's words. From experience she knew that purposefully..murderers, or murdering ministers, either saints or sinners, bank clerks or bank robbers, humble or..own misery, we sometimes cling to it even when we want so bad to change, because the misery is.."Perhaps not quite, but that was twenty years ago, remember. Times change, I guess."..The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided."..slams him, rich with the stink of hot metal and motor oil..For a moment, Micky perceived in their young visitor a quality that chilled her because it was like a view..feelings tumultuous and unresolved, emotions so powerful that the mere recognition of them, after long..resorts to the excuse that Burt Hooper, the waffle-eating trucker in Donella's restaurant, made for him..Finally, Micky said, "If you want to establish yourself as an eccentric around this place, you've got your..out of Eden and became polluted with the tributaries of a fallen world. "How?" Rastus looked mildly surprised. "They'll find a way," he said..'~That could be a good place to start," Kalens suggested to Wellesley..'..Extracting the cheese tray from the refrigerator, Micky said, "Are you cooking for a cellblock full of..all, including grotesque appendages and strange nodules on the brain?..so she would just have to remain."..This is private,' he murmured in a voice that was low but menacing. "Beat it."..Things won't do themselves. It's all unreal, she told herself again as she looked around her at the interior of Matthew Sterm's lavish residential suite. Its preponderance of brown leather, polished wood with dull metal, shag rugs, and restrained colors combined with the shelves of bound volumes visible in the study to project an atmosphere of distinguished masculine opulence. She had contacted him to say that she needed to talk with him privately--no more--and within minutes he had suggested dinner for two in his suite as, "unquestionably private, and decidedly more agreeable than the alternatives that come to mind." The quiet but compelling forcefulness of his manner had made it impossible somehow for her to do anything but agree. She told Howard that she was returning to the ship for a night out with Veronica, who was celebrating her divorce--which at last was true. Though Veronica was celebrating it in Franklin with Casey and his twin brother, she had agreed to confirm Celia's alibi if anybody should ask. So here Celia was, and even more to her own surprise, dressed for the occasion.."This isn't funny, Leilani."..Reminded of Donella, he worries about her welfare. What might have happened to her among all the.."Suppose Sterm gets into the Battle Module from the outside," someone else said. "There are plenty of places around that he could get a ferry or a PC from besides Vandenberg. He's only got to hop across a couple of miles. It wouldn't need a surface shuttle.".."Not likely."..Jean raised her hands in an imploring gesture. "Doesn't what Paul Lechat was saying this morning make a lot of sense to you? Isn't it the only way? Well, he's going to need help to do it. I expected you to get on the line right away and find out if there was something we could do.."That's a shame," Kath said.."Exactly what I was thinking," Wellesley commented, nodding. "And you have to remember that our own people are starting to get restless up here now that

their fears have receded. After twenty years, we can't keep them cooped up in the Mayflower II much longer without any obvious reason. They've got accommodations prepared by the space-base at Franklin. I'm inclined to say we should start moving the first batches down. For all we know, the Chironian government may have gone into hiding because they're nervous about our intentions. It might be a good way of enticing them to come out again." .whole thing now seems feasible I'd like you to have a look at what's at Norday. You should take Hoskins with you. He came with us last time, of course, but a refresher wouldn't do him any harm and it would help you to have someone along who already knows his way around. That was really what I wanted to talk to you about." Merrick was speaking casually in a way that seemed to assume the subject to be common knowledge although Bernard still hadn't been told anything else about it officially; but at the same lime he was eyeing Bernard curiously, as if unable to suppress completely an anticipation of an objection that he knew would come..but scoping the audience was a mistake. Micky stood at the bottom of the steps, and Mrs. D stood.ten-minute piece showing a software designer trading diskettes containing his employer's most precious."Is that just a copy file, or are you displaying the master schedule?" Lechat inquired..The dog's Hanks shudder, striking sympathetic shivers in the boy. Punctuating its panting are pitiful
