". . .Not your fault". For the next many days Barry didn't speak to a soul. He felt no need to communicate anything to anyone. He had his three endorsements?one from a poet who'd published twenty-two books?and he was confident he could have gone out and got three more a day if he'd needed to. He was off the hook..He pushed the door all the way open and stepped back. It was a good-sized living room come to life."You shall not see it again, then," said Hinda. I didn't do it to be mean, honest Nor did I do it because the promise held out by heroic fantasy?the promise of escape into a wonderful Other world?is one I find temperamentally unappealing. On the contrary. It's because I understand the intensity of the demand so well (having spent my twenties reading Eddison and Tolkien; I even adapted The Hobbit for the stage) that I also understand the absolute impossibility of ever fulfilling that demand. The current popularity of heroic fantasy scares me; I believe it to be a symptom of political and cultural reaction due to economic depression. So does Robin Scon Wilson (who electrified a Modem Language Association seminar by calling Dune a fascist book), and Michael Moorcock (see his jacket copy for Norman Spin-rad's The Iron Dream, a novel which vehemently denounces the genre in the same terms Wilson doesf), and the writers of Bored of the Rings, the Lampoon parody, from which came "Arrowroot, son of Arrowshirt".saw me.". A reasonable assumption, since he had struck out his first time to bat, with a shameful 43. But when two weeks had gone by and there was still no word from the Board of Examiners, he wondered if maybe he'd managed to squeak through. He didn't see how he could have. The examiner, a wizened, white-haired fuddy-duddy whose name Barry instantly forgot, had been hostile and aggressive right from the word go, telling Barry that he thought his handshake was too sincere. He directed the conversation first to the possible dangers of excessive sunbathing, which was surely an oblique criticism of Barry's end-of-August tan and the leisure such a tan implied, then started in on the likelihood that dolphins were as intelligent as people. Barry, having entered the cubicle resolved to stake all his chips on a tactic of complete candor, had said, one, he was too young to worry about skin cancer and, two, he had no interest in animals except as meat This started the examiner off on the psychic experiences of some woman he'd read about in Reader's Digest. "Oh, Birdie," I groaned, "you know there's no such thing as a killer type. Almost anyone will loll with such a green monkey he'd had to retreat into his insular existence. At first he thought she was one of the company people? somebody's wife, daughter, sister. That afternoon, when he returned to the bungalow, he caught her staring at him again at the edge of the clearing. So he asked Moises who she was, and Moises didn't know. Apparently she'd just arrived a day or two before, paddling a crude catamaran downriver from somewhere out of the denser jungle stretching a thousand miles beyond. She had no English, and according to Moises, she didn't speak Spanish or Portuguese either. Not that she'd. 210. "Those who lead, lead," he said, simply. He had been loitering, alone and melancholy, for the better part of an hour, eavesdropping to his right on a conversation about somebody's drastic need to develop a more effective persona and to his left on a discussion of the morality of our involvement in Mexico, when a black woman in a white nylon jumpsuit and a very good imitation calf-length mink swept into the room, took a quick survey of those present, and sat down, unbelievably, by him!
