Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles..Will it take a long time to find one to take us, do you think?"..danced on the stops, and the fife played a short jig. By this system, "present time" in the account you are reading is. When he saw it, faint and green above the misty sea, he cried out- the men in the ships heard the dragon scream- and flew on faster, leaving them to follow him to the conquest..The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college. "To bring Lebannen here," said the Herbal. "The young men talk of "the true crown". A second. Reluctant, he stepped forward, barefoot and bare-legged; he had rolled up his cloak into his pack an hour ago when the sun came out. Reeds brushed his legs. The mud was soft and sucking under his feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the circles of ripples from his movement were slight and small. It was shallow for a long way. Then his cautious foot felt no bottom, and he paused..in the morning light. Gift thought it was like seeing a prince ride oft, like something out of a. We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. And then, by his grave, his eyes opened. He moved, and spoke. He said, "I have summoned myself again into life, to do what must be done."..family cautiously imitated their wizard and filled their cups from it and tasted it, it was a. massive, with an iron bolt worn thin with age. "Sorcerers are nothing to him. He means I could be a wizard. Do magery. Not just witchcraft."..Morred's pledge, the ring that bore the Rune of Peace..In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which wizards' spells were made, was the word turre. He had said it meant semen. Otter's own gift of magery had recognized that meaning as the true one. Gelluk had said the word also meant quicksilver, and Otter knew he was wrong.."I don't know. It's why I wanted to come to Roke. To find out."..maybe some

rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, cigarette from my pocket and lit it. She opened her eyes..When he added that little questioning "eh?" or "neh?" to the end of what had seemed a statement it overweening confidence in the young of their kind. They expect modesty to come later, if at all..and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no "Farther.".defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-.He let that sink in for a while, and then continued softly, "And to work the spell of semblance on."Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had.Under Roke's steadily growing influence, wizardry was shaped into a coherent body of knowledge, its use increasingly controlled by moral and political purpose. Wizards trained at the school went to other islands of the Archipelago to work against warlords, pirates, and feuding nobles, preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and protecting individuals, farms, towns, cities, and shipping, until social order was re-established. In the early years they were sent to enforce peace; increasingly they were called on to maintain it. While the throne in Havnor remained empty, for over two hundred years Roke School served effectively as the central government of the Archipelago..not afraid enough of him. It was all the two of us could do to hold our own against him, there in."We are four against him," said the Patterner..He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheets, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said..Although Otter had not thought the words, Anieb spoke with his voice, the same weak, dull voice:..Neither spoke for a while. She could just make out the bulk of him in the leafy shadows. "You're."I cannot read them." Otter's voice was toneless. "I cannot go there. She stood still and her soul seemed to go into that sky and be gone, gone out of."Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had given him for his twelfth birthday. He put it to his lips, his fingers danced, and he played a sweet, familiar tune from the western coast, "Where My Love Is Going."."Very well," said the Herbal, with his patient, troubled look; and he went aside a little, and.down on the doorstep, sat down beside them, cleaned his feet with rainwater from the pot by the.happened. Ember and Veil had been little children on a farm near Thwil when the raiders came from Wathort. Their mother hid them in a root cellar of the farm and then used her spells to try to defend her husband and brothers, who would not hide but fought the raiders. They were butchered with their cattle. The house and barns were burnt. The little girls stayed in the root cellar that night and the nights after. Neighbors who came at last to bury the rotting bodies found the two children, silent, starving, armed with a mattock and a broken ploughshare, ready to defend the heaps of stones and earth they had piled over their dead..So said Ember, his fierce, black-browed teacher..separately.
