

## **CENT DEPRESSION THE EFFICACY OF VARIOUS PHARMACOLOGICAL AND PSYC**

For a half millennium or longer, men ambitious to work the great spells of magery bound themselves.continue to exist in both forms. The many written copies of the ancient texts serve to keep them.Farther along were halls for games of some kind; large rainbow wheels revolved, silver pipes.THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the Enlades. Though it is one of the great isles of the Earthsea Archipelago, there aren't many stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Paln its ill repute, but Semel has only cattle and sheep, forests and little towns, and the great silent volcano called Andanden standing over all..her, and the cat dreaming, and the fire flickering. He had come over the dead mountain on black.as he wished. In the margins of the spells and word lists and in the endpapers of these books of.Grove. She did not look back.."Thought you might. As for King Losen," Hound said, "who knows." He sniffed and sighed. "If I was him I'd retire" he said. "I think I'll do that myself.."to speak a Summoning instead, and the spell had begun to work before he realised what he was doing.After him Otter climbed the winding stairs, broad at first but growing tight and narrow, passing."I just sort of found out," said the boy, evidently not sure if his father approved..SOURCES OF HISTORY.There were no inns on this road through what had once all been the Domain of Iria. As the sun neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a shed for the cart, and straw in the stable loft for the carters. The loft was dark and stuffy and the straw musty. Ivory felt no lust at all, though Dragonfly lay not three feet from him. She had played the man so thoroughly all day that she had half-convincing even him. Maybe she'll fool the old men after all! he thought, and grinned at the thought, and slept..magery had recognized that meaning as the true one. Gelluk had said the word also meant.terrifying place; yet Otter felt a sense of shelter in it. Women ran out of it screaming. They had been hiding no doubt in the back room; he paid them no attention. "Hound," he thought. He spoke the summoning, using Hound's true name, and the old man came to him as he was bound to do. He was sullen, though, and said, "I was in the tavern, down the way there, you could have said my use-name and I'd have come.."knowledge and method of Naming, which is the foundation of the magic of Roke. The amethyst necklace had been.In return he told Veil and Ember about the mines of Samory, and the wizard Gelluk, and Anieb the slave..While Morred sought to free his people from these spells and to confront his enemy, Elfarran returned with their year-old child to her native island, Solea, where her own powers would be strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took refuge at the Springs of Ensa, where, with her knowledge of the Old Powers of the place, she could withstand the Enemy and force him off the island. "The sweet waters of the earth drove back the salt destroyer," says the poem. But as he fled, he captured her brother Salan, who was sailing from Enlad to help her. Making Salan his gebbeth or instrument, the Enemy sent him to Morred with the message that Elfarran had escaped with the baby to an islet in the Jaws of Enlad..went to the door to see what she loved best to see, the sky before sunrise. Looking down from it.felt no wind; it must have been blowing higher up, and the voice of the trees, steady, stately.."I should sap? Sap yourself!"..and heavy. "When will we do it?".Night had come. Gift's lamp had flickered out. Only the red glow of the fire shone on Hawk's face..That, too, I remembered. I didn't crush his fingers. I was quite calm. He wanted to say.."Get out!" she shouted. "Get away, you traitor, you foul lecher, or I'll cut the liver out of you!" She sprang up the bank, pulling herself up by the tough bunchgrass, and scrambled to her feet. No one was there. She stood afire, shaking with rage. She leapt back down the bank, found her clothes, and pulled them on, still swearing - "You coward wizard! You traitorous son of a bitch!".So he cherished his free hours as if they were actual meetings with her. He had always loved her, but had not understood that he loved her beyond anyone and anything. When he was with her, even when he was down on the docks thinking of her, he was alive. He never felt entirely alive in Master Hemlock's house and presence. He felt a little dead. Not dead, but a little dead..first thing the boy did in the Great House, they say, he turned the Long Table of the dining hall.He stared at her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth.."The Patterner sent for us," said the Master Herbal. He looked uncomfortable. Noticing a clump of weeds under the window, he said, "That's velvet. Somebody from Havnor planted it here. Didn't know there

They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth-sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them.
